杭州宝丽泰塑胶机械有限公司

企业介绍

COMPANIES TO INTRODUCE

杭州宝丽泰塑胶机械有限公司成立于1997年, 依托浙江大学, 公司有自己的研究、开发、制造中心。业务范围包括成套挤出设备, 挤出产品的研发, 塑料原材料, 客户培训等多方面, 在上述提及的各个领域, 我们将竭尽全力为客户提供拱适周到的服务和全面的技术支持。

Hangzhou polytech plastic machinery co.,ltd was established in 1997.The company has its own research,development and manufacturing center, business includes the development and manufacture of a complete set of extruding equipment.research and development of extruded products plastic raw material supply. Customer training base and other aspects,in all aspects mentioned above, we will do our best to provide customers with timely, courteous services and comprehensive technical support.

公司主要产品有

The main products of the company

PVC、PC、PS、PET、PE、PP片、瓦、板材生产线, WPC、SPC地板生产线, 塑料异型材生产线, 木塑生产线, 各种原材料, 新型塑料制品。产品远销欧洲, 中东, 非洲和中南亚等国家地区。以上产品理念, 都是致力于终端客户, 为客户朋友们提供交钥匙工程的成套解决方案。我司将在挤出领域和全世界同行友人们一起同行!

PVC、PC、PS、PET、PE、PP sheet, roofing tile, plate production line,WPC、SPC flooring production line, plastic profile production line,Wood plastic product production line, all kinds of raw materials, plastic products. Production and product are exported to Europe, the Middle East, Africa, middle-south Asia and other countries. All above project idea, is committed to the terminal customers, we provide turn-key project for all customers. We will forward together with worldwide friends ,welcome to join us!

公司提供的产品包括

Products provided by the company include.

01

SPC 地板生产线
SPC Floor Extrusion Line

02

WPC 地板生产线
WPC Floor Extrusion Line

03

LVT 地板生产线
LVT Floor Extrusion Line

04

地板UV漆涂设备
UV Coating Machine

05

地板高速裁切生产线
Floor High Speed Slitting
Machine Line

06

地板双端铣槽生产线
Floor Double End Slotting
Machine Line

SPC地板生产线

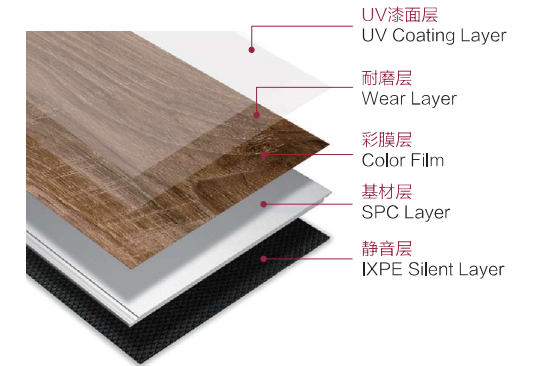

SPC Floor Extrusion Line

设备简介 Machine Features

节能，高效，稳定
Energy saving, High efficiency, stability.
操作维护简便，自动化程度高
Easy operation and maintenance, highly automated.
交钥匙工程，24小时售后技术指导
Turnkey project, 24 hours after-sales technical support.

Structure

WPC 地板挤出生产线

WPC Floor Extrusion production Line

产品性能 Product Performance

自动化程度高，人工少

Highly automated, labor saving.

产量高，稳定性好

High output and good stability.

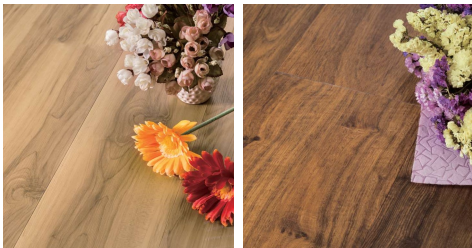

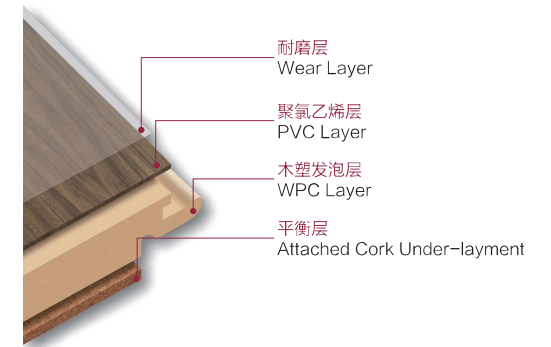

提供厂房布置，设备安装调试，

人员培训等整套解决方案

Provide a complete solution of workshop layout, equipment installation and commissioning, personnel training.

SPC/WPC/PVC 地板UV 漆涂设备

UV Coating Machine for SPC/WPC/PVC FLOOR

设备特点 Features

节能、高效、稳定、淋膜效果好
 独立控制、操作维修方便、安全系数高
 Energy saving, high efficiency, stability, good film coating effect
 Independent control, convenient operation and maintenance, high safety factor

双翼式全精密单辊涂布机
 Unique Full-Precision UV Coater

五灯UV干燥机
 Five-Lamps UV Curing Machine

粉尘静电除尘机
 Electrostatic Precipitator

SPC/WPC/PVC地板高速裁切生产线

SPC/WPC/PVC Floor High-Speed Slitting Line

本产品适用于SPC/WPC/PVC地板的整张大板剖分成所需要尺寸的窄板，采用最新工艺流程，具有效率高、快速转换多种产品规格，节省人工，节约成本等优点。

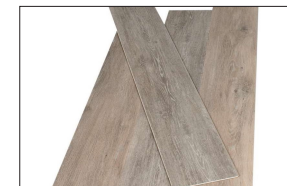

This product is applicable to SPC/WPC/PVC flooring, with the latest technology flow, it is featured by the advantages of high efficiency, quick switching, various product specifications, labor saving and cost saving, etc.

可加工尺寸 Process Size

长度Length: 500-2400mm

宽度Width: 600-1350mm

厚度Thickness: 2-20mm

产品特点 Features

效率高，锯切速度达到每分钟40米

High efficiency, saw cutting speed reaches 40 m/min.

采用V型直线导轨，保证高精度直线锯切

V-shaped linear guides ensure high-precision linear sawing.

锯片间距独立调整，可快速转换地板规格

Separately adjust the space of saw blade, can quickly switch various floor specifications.

自动化程度高，降低生产成本

Highly automated, reducing production cost.

SPC/WPC/PVC地板双端铣槽线

SPC/WPC/PVC Floor Double End Slotting Line

产品特点 Features

本设备加长机身，高速设计；有独立的分隔舱，可根据客户的需求加装在线涂漆，热转印等专用设备。对超长地板加工更加稳定，提高加工精度。

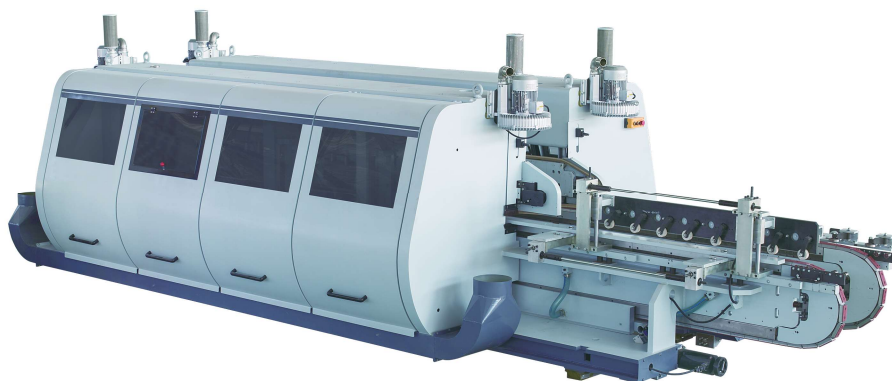

These series of machines are designed with extended length, separate isolated cabins and high speed production. Depending on the demands of the customers, the machines could be integrated with the optional functions with lacquering in line or hot transfer print. The manufacturing process especially for the over-length panels would be more stable and accurate.

链块压带示意图 The schema of the chain block and pressure belt

新型开槽线
New slotted line
完全克服加工缺陷
Completely overcome machining defects

传统开槽线
Traditional slotted line
生产过程中存在加工缺陷
Processing defects in the production process

SPC/WPC/PVC 新型绿色环保地板

SPC/WPC/PVC New Environmentally Friendly Floor

产品优点 Product Advantages

0 甲醛

0 Formaldehyde

无任何化学添加，科学检验，每一块材料都本着自然、环保的初衷。无污染环境加工，欧洲CE标准，让污染远离家庭。
No chemical addition, scientific inspection, each piece of material is natural, environmentally friendly initial table. Non-polluting environmental processing, European CE Standards, keeping the family away from pollution.

防水

Water proof

全身360°防水，材料本身不吸水，不会造成因地板吸水引起的变形翘曲现象，保证地板经久耐用。
360° waterproof, the material itself does not absorb water, will not cause deformation caused shape warp by floor water absorption, ensuring floor high quality warranty.

耐磨

超耐磨

Wear resistant

地板表面有特殊的耐磨处理层，使用寿命超长，高强度的耐磨性保障地板使用寿命。
The surface of the floor has a special wear-resistant treatment layer, which has an extremely long service life and high-strength resistance to the life of the floor.

防滑

防滑

Non-slip

地板表面经过凸处理，防止滑倒，即使在有水份的情况下，其防滑性能也要比其他地板优越。
The surface of the floor is convexly treated to prevent slipping even if the watch. In the case of moisture, the anti-slip performance is better than other the floor.

静音

静音

Mute

良好的隔音性、降低噪音效果，减少缓解室内物体自然坠落给地板冲击力所产生的噪音。
Good sound insulation, noise reduction, and reduced indoors. The noise that the object naturally falls to the impact of the floor.

适用范围：

Product Application

可广泛用在卧室、客厅、厨房及卫生间；写字楼、图书馆、博物馆、商场、餐厅、工厂、学校、医院等地面铺装
It can be widely used in the bedroom, living room, kitchen and toilet; Office buildings, libraries, museums, shopping malls, restaurants, factories, schools, hospitals and other ground pavement

地板应用案例：

Floor application

阻燃

阻燃

Flame retardant

地板采用阻燃材料，离火自熄，阻燃性能，防火等级达到国家阻燃防火标准。
性能安全，稳定，质量好。
The floor is made of flame retardant material, self-extinguishing from fire, Flame retardant performance, fire rating reaches the national flame retardant fireproof standard.
